

PRIME FX

— GLOBAL MARKETS. LIMITLESS OPPORTUNITIES. —

WELCOME TO **PRIME FX**

Global Markets. Limitless Opportunities.

ABOUT US

Prime FX is a trusted financial services company committed to providing seamless access to global financial markets. Through advanced trading technology, market expertise, and a secure trading environment, we empower traders and investors to pursue opportunities with confidence.

Driven by innovation, transparency, and client success, Prime FX delivers a professional trading experience designed to help individuals and businesses achieve their financial goals.

OUR VISION

To become a trusted global leader in online trading by creating a seamless, secure, and technology-driven ecosystem where individuals can unlock their full financial potential

OUR MISSION

To make global financial markets accessible to everyone by delivering innovative trading solutions, transparent services, and exceptional customer support that enables sustainable growth and success.

WHY CHOOSE US ?

Global Market Access

Trade across a wide range of financial instruments and international markets from a single platform.

Security & Transparency

Your trust is our priority. We maintain high standards of security, compliance, and operational transparency.

Client-Centric Approach

We focus on delivering personalized solutions and resources that help traders make informed decisions.

Advanced Trading Technology

Experience fast execution, real-time market data, and powerful trading tools designed for modern traders.

Expert Support

Our dedicated team is committed to assisting clients with timely guidance and professional support.

Continuous Innovation

Prime FX continuously evolves with market trends and technological advancements to provide an exceptional trading experience.

PRIME FX
— GLOBAL MARKETS. LIMITLESS OPPORTUNITIES. —

SECTION 1

UNDERSTANDING PRIME FX MATRIX TECHNOLOGY

Our technology is built on a decentralized network architecture that ensures exceptional transparency, enhanced security, and efficient digital transaction processing. Designed to support a modern financial ecosystem, our infrastructure delivers reliability, scalability, and seamless performance while maintaining the highest standards of trust and innovation.

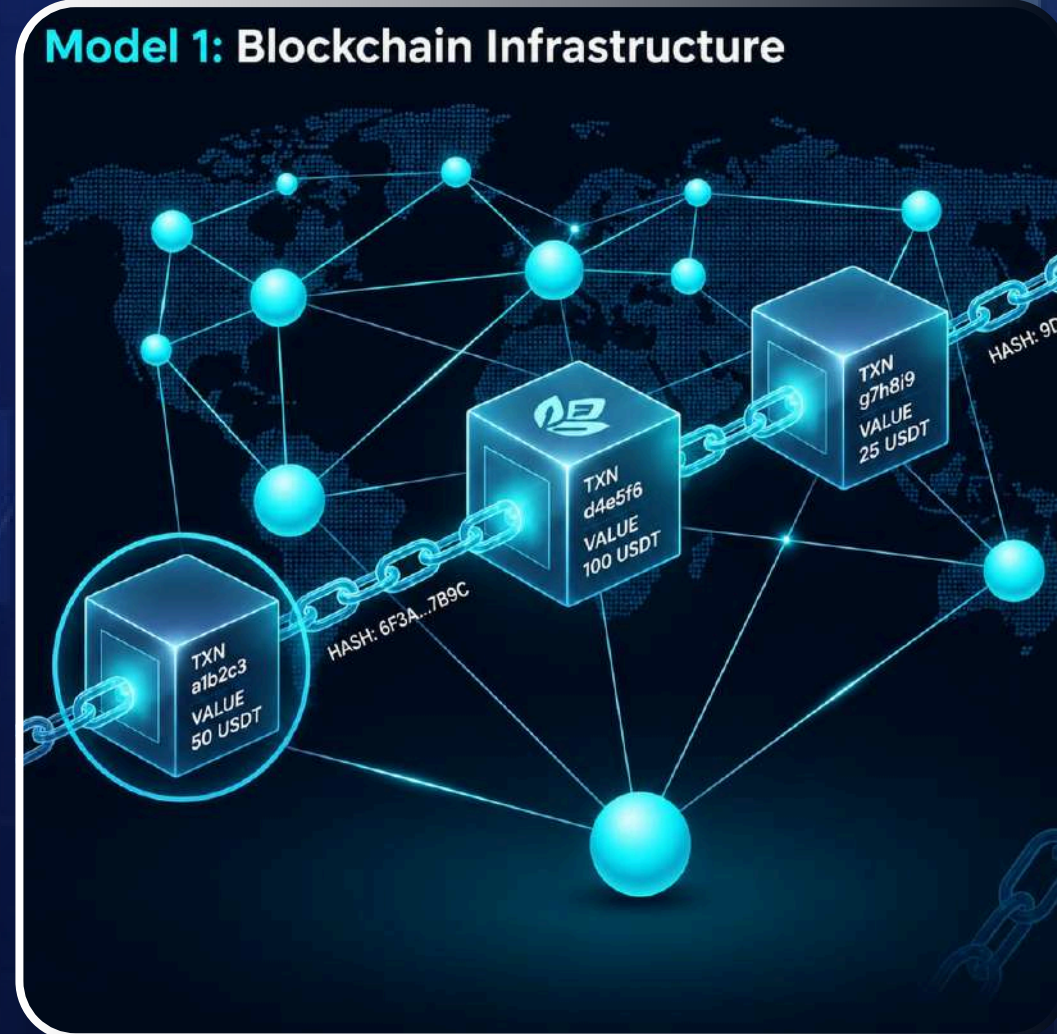

Below are the key components of our graphic layout design presented in a structured sequence.

Blockchain is a decentralized and cryptographically secured distributed ledger technology that records transactions across a network of computers.

Whenever a transaction, deposit, or financial activity occurs on the platform, the information is securely stored as a block and simultaneously validated across multiple network nodes.

Each new block is linked to the previous one through a unique cryptographic hash, creating an immutable chain of records. This architecture enhances transparency, strengthens security, and ensures that transaction data remains tamper-resistant and highly reliable.

**100% VERIFIED STATUS: MODEL 1 -
BLOCKCHAIN INFRASTRUCTURE INTEGRATED**

Bitcoin and many leading blockchain protocols operate on a Proof of Work (PoW) consensus mechanism. This process relies on significant computational power and advanced hardware resources to validate and secure network transactions.

Miners utilize specialized computing systems to solve complex cryptographic algorithms, contributing the processing power required to maintain the blockchain. In return for their efforts, the network automatically rewards successful miners with newly generated cryptocurrency and transaction fees, ensuring the continued security and stability of the ecosystem.

100% VERIFIED STATUS: MODEL 2 - PROOF OF WORK (PoW) CORE PROTOCOL

Model 2: Proof of Work (PoW) Mechanism

Prime FX Matrix Ecosystem integrates a power-efficient and automated Proof of Stake (PoS) mechanism, eliminating the need for energy-intensive mining hardware. By staking their capital within the platform's secure network pools, users participate in the ecosystem while automated smart contracts manage the process efficiently.

This advanced framework is designed to facilitate seamless reward distribution, optimize network participation, and deliver a secure, transparent, and scalable digital finance experience.

100% VERIFIED STATUS: MODEL 3 - PROOF OF STAKE (PoS) STAKING ENGINE

Model 3: Proof of Stake (PoS) & Yield Staking Engine

Secure Staking, Passive Yield, Dynamic Return Pool.

SECTION 2

DIRECT INVESTMENT & DAILY ROI PLAN

Investors only need to make a one-time capital allocation. As long as the funds remain active in the network pool, the system automatically distributes daily liquidity-based rewards at a predefined rate.

PACKAGE AMOUNT	DAILY ROI (%)	MONTHLY FIXED PROFIT	ROI DURATION / EXPIRY POLICY
\$50	0.35%	\$5.25 (~10.5%)	Lifetime (While Principal Fund Remains Active)
\$100	0.40%	\$12.00 (~12.0%)	Lifetime (While Principal Fund Remains Active)
\$250	0.45%	\$33.75 (~13.5%)	Lifetime (While Principal Fund Remains Active)
\$500	0.50%	\$75.00 (~15.0%)	Lifetime (While Principal Fund Remains Active)

SECTION 3

DIRECT ACCELERATOR & TEAM MATCHING INCOME

1. Direct Referral Income (Active Accelerator)

Earn rewards by introducing new members to the Prime FX ecosystem through your unique referral code. Whenever a referred user activates a package, you receive an instant Direct Referral Bonus based on the package value.

- **Income Rate: 5% Fixed on every direct referral activation.**
- **Example: If your direct referral activates a \$500 package, you will instantly receive a \$25 referral bonus credited to your account.**

100% VERIFIED STATUS: ALGORITHMIC YIELD & ACTIVE INCENTIVE SEGMENTS

2. Team ROI Matching Income (10 Generation Levels)

As your network grows, you can earn additional passive income from your team's daily performance. Whenever partners in your downline generate daily profits, you receive a percentage-based network reward from their daily ROI distributions across up to 10 levels, creating a continuous and scalable earning opportunity.

GENERATION LEVELS	MATCHING ROI INCOME (%)	STRUCTURAL LEVEL DESCRIPTION
Level 1	8%	Earn 8% of the daily ROI generated by your direct downline partners.
Level 2	5%	Earn 5% of the daily ROI generated by your second-generation partners.
Level 3	4%	Earn 4% of the daily ROI generated by your third-generation partners.
Level 4	3%	Earn 3% of the daily ROI generated by your fourth-generation partners.
Level 5	2%	Earn 2% of the daily ROI generated by your fifth-generation partners.
Level 6 to 10	1% (Each Level)	Earn 1% of the daily ROI generated by every network partner from Levels 6 to 10.

Level Unlocking Protocol (Direct Referral Rule)

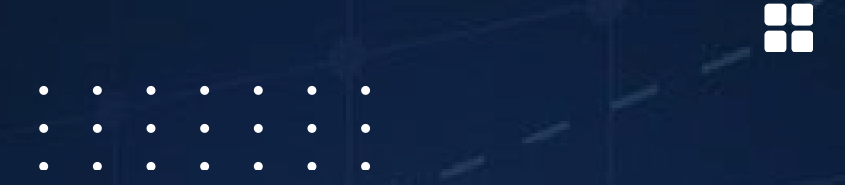

To unlock all 10 levels of team income, the following criteria must be met:

DIRECT ACTIVE ACCOUNTS	LEVELS UNLOCKED
2 Direct Accounts	Level 1 & Level 2
4 Direct Accounts	Level 3 & Level 4
6 Direct Accounts	Level 5 & Level 6
8 Direct Accounts	Level 7 & Level 8
10 Direct Accounts	Level 9 & Level 10

- *100% VERIFIED STATUS: MULTI-LEVEL PASSIVE GENOMICS OPERATIONAL*

SECTION 4

LEADERSHIP REWARD MATRIX (NO TIME LIMIT)

Leadership Rank Rewards are automatically calculated based on your team's cumulative business volume. All business turnover is carried forward, ensuring that previously generated volume continues to contribute toward future rank achievements.

RANK	TEAM BUSINESS VOLUME	REWARD
Star Rank	\$1,000	\$50 Cash / Smart Watch
Silver Rank	\$3,000	\$150 Cash / Smartphone
Gold Rank	\$7,000	\$300 Cash / Premium Tablet
Pearl Rank	\$15,000	\$700 Cash / iPad or Laptop
Ruby Rank	\$35,000	\$1,500 Cash / Premium India Tour
Diamond Rank	\$80,000	\$3,500 Cash / International Luxury Trip
Crown Rank	\$200,000	\$8,000 Cash / Superbike or Car Down Payment

► **Reward Volume Qualification (60:40 Two-Leg Protocol)**

To qualify for Leadership Rank Rewards, the total organizational business volume must be achieved through at least two active team legs under the 60:40 qualification structure.

Power Leg (Strongest Team Line):

A maximum of 60% of the required business volume can come from the strongest leg.

Supporting Legs (Combined Team Lines):

The remaining minimum 40% of the business volume must come from all other active legs combined.

This structure promotes balanced team growth and ensures sustainable network development across multiple organizational lines.

- *100% VERIFIED STATUS: LEADERSHIP REWARDS MATRIX SYSTEM*

ECOSYSTEM RISK & CORE PROTOCOLS (T&C)

Leadership Rank Rewards are automatically calculated based on your team's cumulative business volume. All business turnover is carried forward, ensuring that previously generated volume continues to contribute toward future rank achievements.

➤ **2X Safety Locking Period Rule**

To maintain platform stability and protect the integrity of the core capital pool, an automated safety protocol is implemented. The principal investment amount remains locked until the participant's total earnings reach 200% (2X) of the initial package value. Once the 2X milestone is achieved, the principal withdrawal feature is automatically activated according to the platform's policy.

➤ **Principal Fund & ROI Deactivation Policy**

After completing the 2X Safety Lock Period, investors may withdraw 100% of their principal capital at any time. Once the principal fund is withdrawn from the secure wallet, the associated daily ROI generation will be permanently deactivated, and no further returns will be accrued on that package.

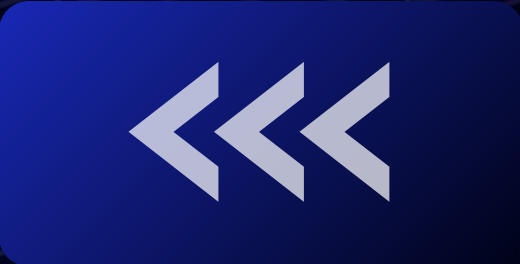

▶ **Proof of Activity (Daily Validation Check-In)**

To maintain active participation and support network validation processes, all users are required to log in to their dashboard daily and complete the “Claim ROI” action with a single click. If the daily check-in is missed, the reward allocation for that specific day will not be processed.

Network Gateway: Prime FX Matrix processes transactions exclusively through USDT (TRC20/BEP20) networks, ensuring secure, fast, and efficient digital asset transfers.

Administrative Deductions: To support platform maintenance and operational services, a 10% Administrative Service Charge will be automatically applied to every withdrawal request at the time of processing.

- *100% VERIFIED STATUS: SECURITY COMPLIANCE & RISK ENGINE AUDITED*

THANK YOU

For Your Attention
